

The Power and Speed of Space3D (SAT/TSS)  
Is NOW AVAILABLE on  
Windows XP/XP x64 and Vista/Vista 64.

# TSS on Windows SAT on Windows

## IMPROVEMENTS

- ◆ Concurrent Structural and Thermal Design.
- ◆ CAD Data Importation with Transfer.

## Price List

*Space 3D Bundle (SAT/TSS) Price List* – Space 3D includes : SAT and TSS.

Floating license\* ..... \$8295.00

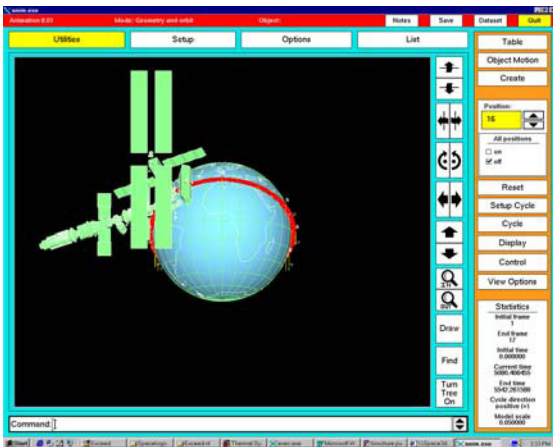

*Thermal Synthesizer System (TSS with Mesh) Price List* – TSS with applications: Geometry, Radk, Heatrate, Mesh, Orbit, Animation, FECC, CONCAP, Solver (SF 4.3C), XYPlot, Transfer and Image.

Floating license\* ..... \$7295.00

*Structural Analysis Tool (SAT) Price List* – SAT includes : Geometry, Mesh, FEM, SATSTRAN, Load, Transfer, and XYPlot.

Floating license\* ..... \$2995.00

\* Uses FLEXlm, each license includes software and maintenance fee for one (1) year. Licensing is per user per central processor (CP) during usage.

## MINIMUM REQUIREMENTS

*WINDOWS XP/XP x64 or Vista/Vista 64*

- Xeon or Core 2
- 2 Gbytes RAM
- 40 Gbytes Free Disk Space
- Hummingbird Exceed/Exceed 3D
- (Optional) Intel FORTRAN for Sinda/Fluint 4.3C usage

*Also available on Linux*
